

## Log Cabin By Christian

Our log cabin is made out of card board and Popsicle sticks. We have made most of our cabin out of card board. We will use a sheet of paper as a templet. We will use clay figures for people. Also we used real dirt and leaves. Another thing we did is make corn out of clay. As you can see clay was a big part of this project. The last thing we made from clay was a bed and shelf.

Thanks for
