

Personalized Learning

Congratulations! You have been selected to participate in a personalized learning program. You have demonstrated mastery of grade-level material and proven your ability to work independently in class. Now, it's time for you to choose your own educational path. For the next few months, you will plan and engage in activities of your own choosing. You will complete these activities during class time and share the results of your work with your peers. The purpose of this program is to facilitate college and career readiness, so choose your activities with this in mind. Below are some suggestions to get you started.

Inquiry: You might be super interested in a particular subject. Use this time to do some research and prepare a presentation.

PBL: You might like to learn something new by creating a project. Use Project Based Learning strategies to do this.

Leadership and Public Service: You might want to get some experience as a student leader. Organize a club around a cause that is important to you and do something to change your school community.

The Four C's: Work on your communication skills, create something unique, sharpen your critical thinking skills, or collaborate with a partner.

Resources

- Pearson Learning e-text (math)
- Scholastic News Archive
- MyON
- Notability
- Explain Everything
- Keynote
- Code.org
- Tynker (coding app.)
- Math is Fun
- Subtext
- Weebly (websites)
- ST Math
- Tap Typing
- Accelerated Reader
- Adobe Voice

Personalized Learning Contract

Please write your goals for the week on this form. Choose goals that are realistic. Remember, it's probably a good idea to start with a manageable goal until you have a good idea about how much you can accomplish in a week. When you have written your goals, please sign and date at the bottom of the page.
